

PHOTOVOLTAIC MODULE CM Series

German quality standards

All WIOSUN® photovoltaic modules are subject to our strict quality standards. To ensure this, we continually monitor all manufacturers and suppliers worldwide that deliver products to WIOSUN®. All of our 25 year know-how together with selected individual components in premium quality have gone into them. These modules are also particularly suitable for use in hot regions due to their high degree of laminated membrane integration.

Positive-only tolerance

You can count on our quality, because WIOSUN® delivers only modules with positive tolerance up to + 5 Wp.

Suitable for every weather condition

The newly developed and strengthened 35 millimetre hollow chamber frame gives our modules extremely high stability – in all weather conditions.

10 year warranty on our products

With the 10 year product warranty on the WIOSUN® module series, as well as a 25 year performance guarantee, WIOSUN® photovoltaic modules are among the most reliably calculable components for efficient PV systems.

The performance optimizer of SolarEdge

You can get our WIOSUN® modules with the performance optimizer from SolarEdge or as a standard version.

Added Value – Linear performance warranty from WIOSUN®
